

Deepa Tilwani

My research focuses on Neurosymbolic AI to develop trustworthy large language models (LLMs) for interdisciplinary and high-stakes applications. I have received accolades for interdisciplinary research in healthcare by developing plausible methods for interpretable and explainable AI. I have accepted papers in top-tier journals and conferences, including AAAI (core A*), IEEE Intelligent Systems (IF: 6.7), and IEEE Journal of Biomedical and Health Informatics (IF: 7.7), where I explore the integration of symbolic reasoning with LLMs. I also developed REASONS, an open-source benchmark dataset for developing attribution and reasoning capabilities in LLMs.

Education

- 2022–Present **Ph.D. in Computer Science and Engineering**, *University of South Carolina*, Columbia, SC, USA
- 2019–2022 **M.Tech in Computer Science and Engineering**, *The LNM Institute of Information Technology*, Jaipur, Rajasthan, India
Thesis: *Predicting Familial Likelihood of Autism Spectrum Disorder in Infancy Using ECG*
- 2014–2018 **B.Tech in Computer Science and Engineering**, *Govt. Women Engineering College*, Ajmer, Rajasthan, India

Skills

- Programming Languages Python, PyTorch, Keras, TensorFlow, Scikit-learn, NumPy, Pandas, CUDA, GIT, C
- Tools Seaborn, Matplotlib, Jupyter, Git, Docker, Matlab, GPU
- Methodologies Machine Learning, Deep Learning, Knowledge Graphs, NeuroSymbolic AI, Signal Processing (EEG, fMRI/MRI, ECG), Large Language Models (LLMs), Reterival Augmentation Generation (RAG)
- Soft Skills Team Leadership, Project Management, Communication Skills, Cross-Functional

Work Experience

- 2022–Present **Graduate Research Assistant**, *Artificial Intelligence Institute, University of South Carolina*, Columbia, SC, USA
- Leading research projects focused on LLMs for search and attribution.
 - Led a project on *ECG Recordings as Predictors of Very Early Autism Likelihood: A Machine Learning Approach* that resulted in *Trainee Best Research Presentation Winner in SCAND Symposium*.
 - Developed an open source dataset for attribution evaluation *REASONS: A benchmark for REtrieval and Automated citationS Of scieNtific Sentences using Public and Proprietary LLMs.*
 - Collaborated with a multidisciplinary team to develop machine learning benchmarks for neuroimaging data.
- June **AI Research And Development Intern**, *Neural Nest, LLC*, Remote, USA
- 2025–August 2025
- Contributed to the development of ARTHEMIS, an AI-driven Virtual Courtroom platform for U.S. arbitration and mediation.
 - Developed multi-agent simulation models to enhance tribunal dynamics and decision-making processes.
 - Designed workflows that reduced case resolution times from over 60 days to approximately 15 days, improving efficiency by 75
 - Supported the creation of secure digital courtroom spaces, increasing accessibility for users nationwide.

- 2021–2022 **Visiting Research Scholar**, *Artificial Intelligence Institute, University of South Carolina, Columbia, SC, USA*
- Facilitated research within a multidisciplinary neuroscience team by contributing AI expertise, helping to bridge the gap between computational methods and neurocognitive studies.
 - Provided valuable insights to support the development of AI tools for analyzing neuroimaging datasets.
 - Gained substantial experience in neuroimaging data (EEG, MRI) processing and analysis, collaborating with neuroscience experts to refine research goals and methodologies.
 - Studied emerging trends in AI, machine learning, and deep learning, including their applications in neuroscience, leading to enhanced understanding and expertise in both fields.
- 2020–2021 **Remote Research Intern**, *Artificial Intelligence Institute, University of South Carolina, Columbia, SC, USA*
- Collaborated on experiments exploring the interaction between ECG and machine learning, assisting in developing new research methodologies.
 - Assisted in designing experiments that tested AI models' effectiveness in predicting Autism likelihood from ECG.

Publications

- Journal Articles ○ **Tilwani, D.**, O'Reilly, C., Riccardi, N., Shalin, V.L., den Ouden, D.B., Fridriksson, J., Shinkareva, S.V., Sheth, A.P. and Desai, R.H., (2025). Benchmarking machine learning models in lesion-symptom mapping for predicting language outcomes in stroke survivors. **Frontiers in Neuroimaging**, 4, p.1573816.

 - **Tilwani, D.**, O'Reilly, C., Bradshaw, J., & Sheth, A. (2023). Interpretable Machine Learning for Predicting the Likelihood of Autism from Infant ECG Recordings. *SCAND Research Symposium*, Columbia, SC. [Poster, Trainee Best Research Presentation Winner]

Awards and Achievements

- 2025 Recipient of the 2025 University Travel Award (\$500) for attendance at the International Conference on Advances in Signal Processing and Artificial Intelligence (ASPAI' 2025).
- 2025 AAI-25 Student Scholarship Award (\$1000)
- 2024 EMNLP Diversity and Inclusion Award (\$1000)
- 2023 Trainee Best Research Presentation Winner (\$100), SCAND Symposium.
- 2023 Research Symposium Third Place Poster Award (\$200), University of South Carolina.
- 2021 Nirmala and Jashwantlal Clerk Memorial Scholarship (\$15000), AIISC.
- 2020 2nd Prize (\$100), LINZ Ars Festival - BR41N.IO Hackathon.
- 2020 2nd Prize (\$300), BR41N.IO: Brain-Computer Interface Designers Hackathon.
- 2016 1st Place, Poster Presentation on AR and VR Technology, GWECA.
- 2015 3rd Place, Coding Challenge: Toast to Code - C Language, GWECA.
- 2012 Silver Prize, National Science Olympiad (NSO).

Advising and Mentoring

- Yash Saxena, Galgotias University, Sept 2023- Sept 2024. Project: "REASON: Reference and Assertions for Consistent Evaluation of Factual/Non-Factual Sentences".
- Nethra Gunti, IIIT SriCity, 2022. Project: "Phase Shift Analysis in Autism Spectrum Disorder: A Video-Based Study of Parent and Object Interactions".
- Sai Durga Rithvik Oruganti, University of South Carolina, 2022. Project: "Phase Shift Analysis in Autism Spectrum Disorder: A Video-Based Study of Parent and Object Interactions".

Teaching Experience

- Teaching Assistant, SCINBRE Machine Learning in Python Workshop 2024, University of South Carolina.
- Instructor, Introduction to Machine Learning, AIISC High School Summer Camp, 2024.
- Instructor, Introduction to Python, AIISC High School Summer Camp, 2023.
- Teaching Assistant (2019-2021), The LNM Institute of Information Technology: Computer Networks, Data Structures, DBMS, and Advanced Programming Labs.
